Subject: RE: USDA RD HAMP Meeting September 6
Attachments: September 6 2017 Agenda.docx

Lolma Lionel,

Thanks for accepting the invitation to participate as historian and water resources department manager at the USDA RD meeting in Phoenix September 6. Agenda Attached.

We understand Chairman of the Water Energy Team Councilman Lamar Keevama is also planning to attend on behalf of the Tribal Council. Kwak,kwah.

A DRAFT Agenda is attached for your review and suggestions. If you can present a brief history, and organizational advantages of a rural water system and constitutional or local governance constraints to village well head treatment; IHS will present engineering and financial advantages, ASEPA regulatory advantages of the HAMP.

Thanks.

TIM 928 401 4000

Subject: RE: 2017 Tribal Priority Points SDS Scoring

Afternoon Lydell and Lionel,

Based on the last few days of meetings, the PHX Area IHS SFC Director, Eric Matson, has expressed a possibility of providing IHS funds for the HAMP in FY2018. If so, this is going to be a special case that falls outside of our normal SDS deadlines. Eric is going to follow up with HQ to clarify some issues in the next couple weeks. Also, the initial Area review of SDS projects is expected sometime next week.

It may be advisable to change Tribal Priority Points (potentially short-notice) prior to August 31, depending on what we find out next week.

The attached email is relevant.

Thanks,

Jesse

James,

Good Afternoon, I will be uploading this letter delivered by Lionel to the appropriate SDS projects in STARs.

Lydell

Subject: 2017 Tribal Priority Points SDS Scoring

Afternoon Lionel,

Please find the attached 2017 Hopi SDS listing for funding in FY2017 with what we recommend as priority points already assigned.

We recommend the following allocation of points:

#1 Priority (16 points) AZ09961-0301 Bacavi Water System Improvements Project

#2 Priority (12 points) AZ09999-0902 Hopi Solid Waste Landfill Project

#3 Priority (8 points) AZ09981-0601 Hopi Arsenic Mitigation Project

#4 Priority (4 points) AZ09999-0905 Hopi Open Dump Closures

The #1 priority has a \$275,000 verbal funding commitment from the Bacavi Village per CSA Stewart Nicholas at this time pending approval of AML Application. This scope includes Tank Recoating, Gate Valve Replacement, 6" Water Main Extension. We are currently putting plans together to submit for AML Funding. This is probably the only project in SDS that would be considered for IHS Funding. IHS would only be able to fund a small portion (\$38,000 if funded) of the \$313,000 total. This project is low (currently sitting at #22) on the Area Priority listing, but maybe since the requested funds are a small amount relative to other IHS Projects and with a fully developed Construction Drawings this project would get considered for funding. It may still be a long shot though, but the 16 points will push it closer to the funding range.

The #2 priority is mainly to go after planning funds for Hopi Solid Waste to further develop the current project in SDS and other projects in SDS including Hopi Solid Waste Equipment. See attached SDS Narratives for more information. The current cost estimate and scope of work would need adjusted with input from the Tribe.

The #3 and #4 priorities are largely just to show Tribal support for these projects. They are not likely to be funded.

Please provide a reply to this email if you concur with the above allocation of points or if you would like to discuss further and/or reallocate. Let me know if you require additional information (like more SDS Project Narratives).

Thanks,

Lydell Yazzie, E.I.T.
